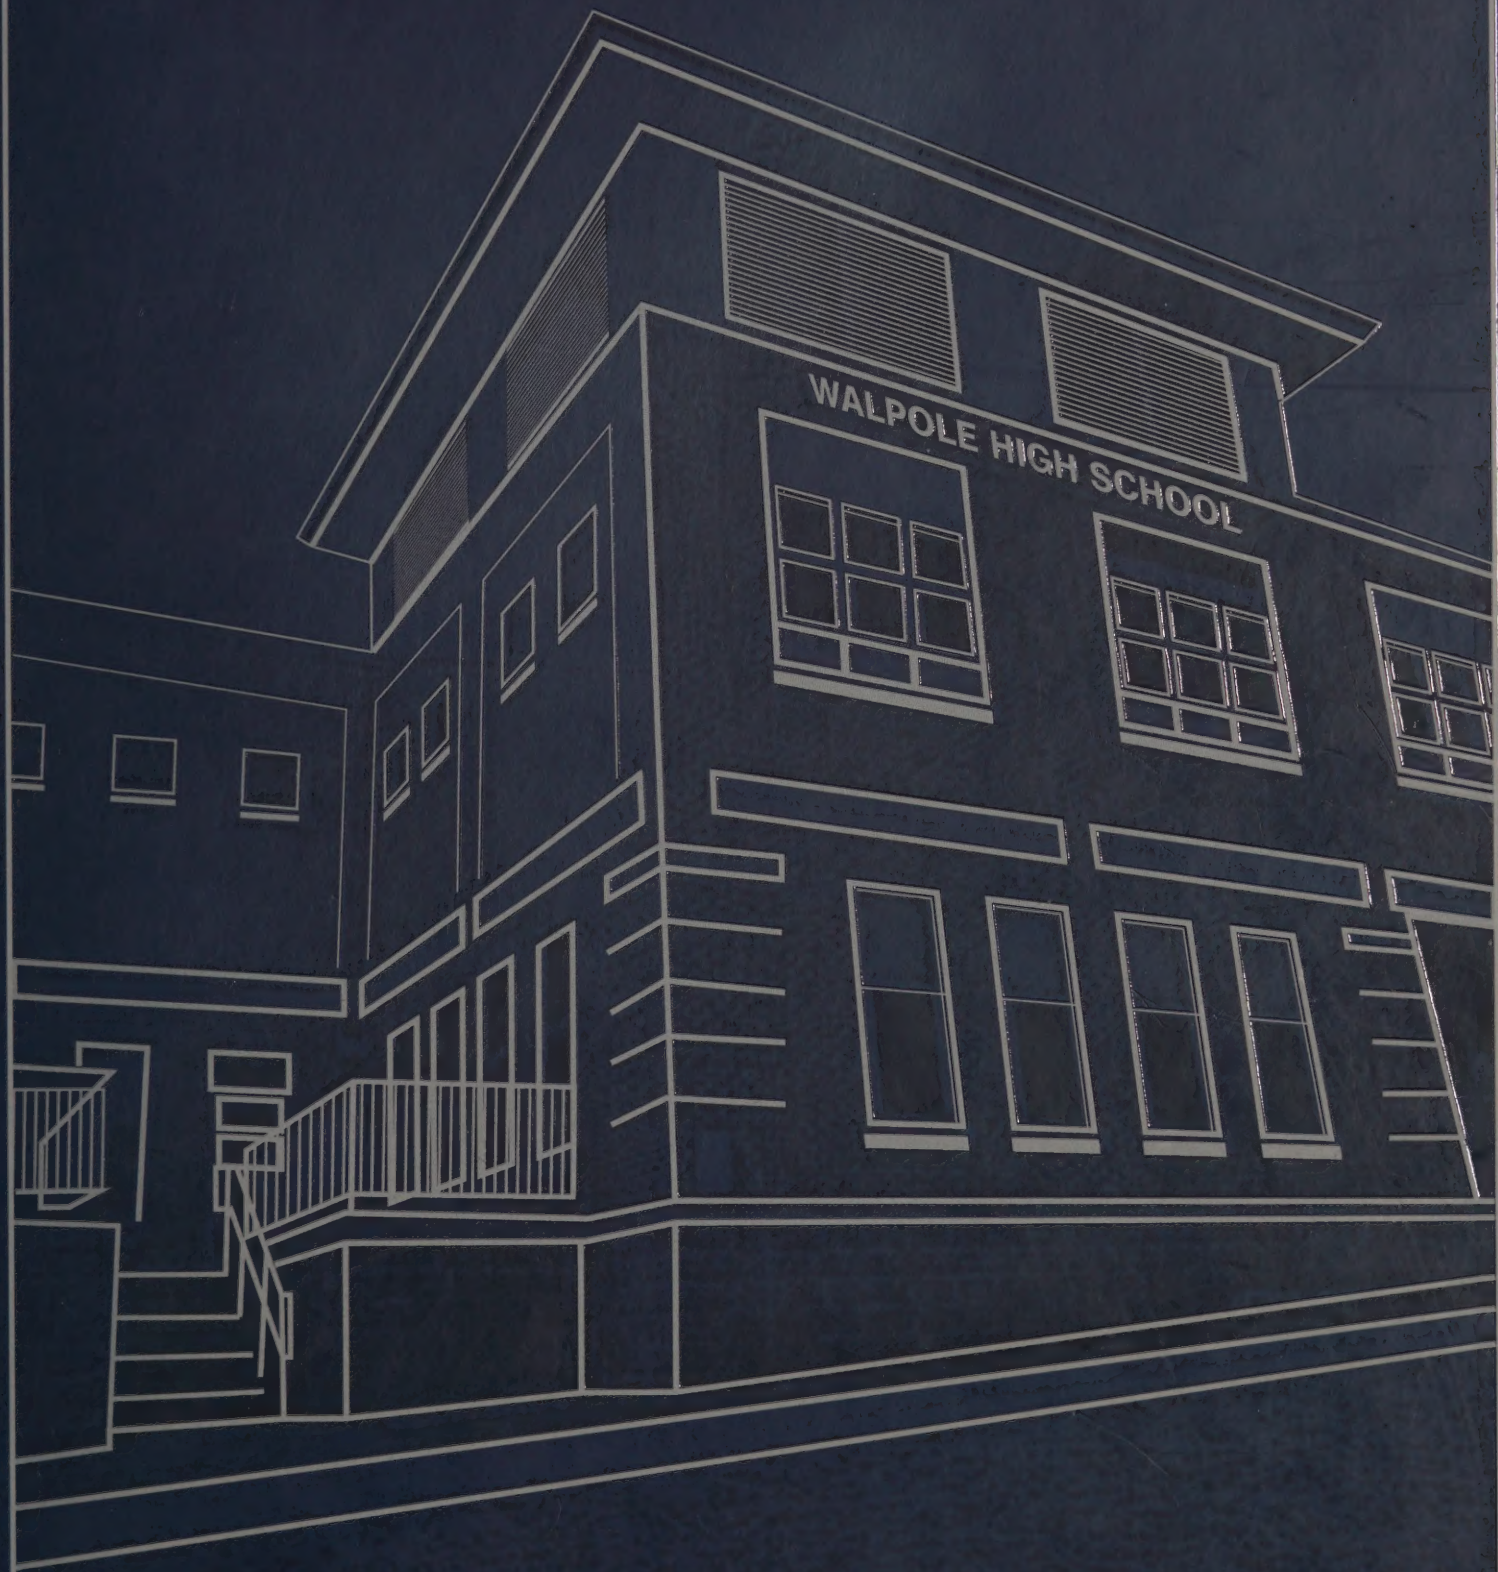
2022



I will always remember the memories that I have made at Walpole High School, as well as the special teachers whom have made such an impact on my life.
– Shaylyn White

Our Mission is to foster learning through a collaborative process that engages students, educators, and the community. This endeavor provides opportunities for students to acquire knowledge and to develop skills in order to achieve academic and personal goals. We will make every effort to graduate all students as successful and literate members of society – and be able to succeed in the increasingly complex world in which they will live and work.

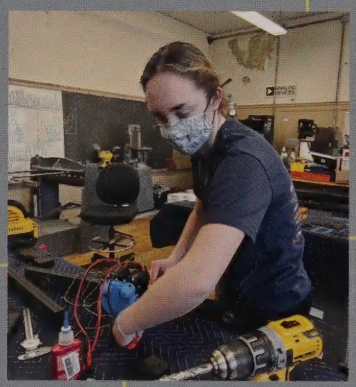
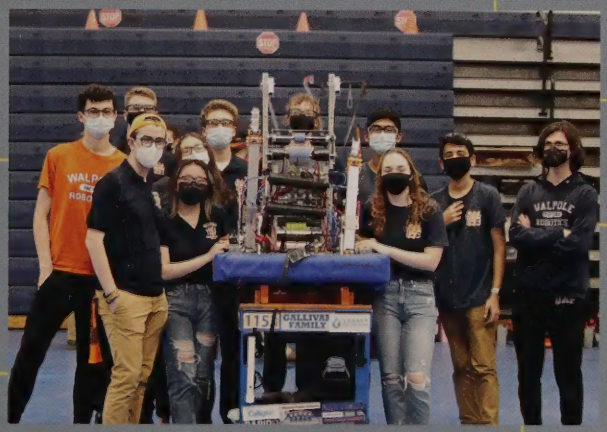
ROBOTICS



The Walpole Robotics Team, FRC 1153, is made up of 35 students who design and build a new robot each year to take on a unique challenge. This year students are designing a robot to be able to traverse uneven monkey bars and launch 9.5 inch tennis balls into a goal 8.5 feet in the air. We will be competing against 80 other teams from all around New England in two upcoming tournaments with the goal of qualifying into the New England Championship where we can compete to claim the title of Best in New England.



UNICEF

The purpose of the WHS UNICEF Club is to help provide better opportunities and resources for families in third world countries. The UNICEF Club at WHS raises awareness and money to help make the world a better place! This year we raised awareness on topics such as keeping female students in school, fair distribution of COVID-19 vaccines, mental health supports for students worldwide, climate change, fighting violence against children, preventing human trafficking, and more. To raise funds to help support UNICEF, we have had several fundraisers throughout the year including a Halloween Drive-thru Trunk-or-Treat and bake sales.
